Title: iApply: A Web-based Scholarship System of Kolehiyo ng Lungsod ng Lipa Utilizing AES-128 Algorithm

Dr. Maricel M. Gaspar/Ms. Judith Elic/ Mr. Jerwin Cruz/Mr. Joseph Malaluan

1) The only active year activated is the selected academic year and other academic year must be disabled. The application for the scholarship for each academic year must have a deadline.
2) No duplicate scholarship applications and other person should not be able to apply for the scholarship.
3) Filtering for school year, academic year, degree program, year level, etc.
4) Please provide the necessary reports stated in the objectives and must be supported by source documents.
5) Students can select multiple scholarships (TDP and TES) but will only enjoy one type of scholarship. All students are already considered UNIFAST scholars.
6) The system must recognize all enrolled students at KLL – use student number to validate.
7) Total fees must be fixed based on the number of units.
8) Billing & Payroll must be working.
9) Provide a dynamic interface for Year level, Degree Program, semester, etc.
10) There must be an audit trail.
11) Sending of email is required.
12) Changes in the Announcement must reflect in the system.
13) AES-128 Algo must be presented in the next presentation.

Other Comments
1. Prepare IMRAD format
2. Research presentation and publication before graduation

Final Verdict:
